EDUCATION

The University of Texas at Dallas

Master of Science, Finance

January 2026 - May 2027

GPA 4.0

The University of Texas at Dallas

Bachelor of Science, Finance

August 2022 - May 2026

GPA 3.5

SKILLS

Tools: MS Suite (Excel, PowerPoint, Word), PowerBI, Tableau, SAP, Salesforce CRM, Bloomberg Terminal

Languages: SQL, Python, TypeScript, React; experience with financial modeling, data analysis, dashboard development, and process automation

PROFESSIONAL EXPERIENCE

Carption Private Wealth, Southlake, TX

June 2025 – August 2025

Private Wealth Management Intern

- Analyzed financial data across an \$8M+ client book, uncovering trends and translating findings into actionable insights that informed advisor decision-making.
- Produced and maintained six recurring financial reports and dashboards for senior stakeholders, establishing performance metrics and ensuring reporting accuracy throughout each cycle.
- Maintained pricing and inventory positions for 30+ accounts, identifying forecasting outliers and taking appropriate actions to improve revenue across assigned markets.

PROJECT EXPERIENCE

Frisbee Stock Exchange (FSE), Personal Project

January 2026 – Present

Full-Stack Developer & Designer — github.com/rcnue2004/FSE

- Automated player valuation updates by developing a dynamic pricing engine within a full-stack fantasy stock market application, recalculating prices for a 25-player league after each tournament based on statistical performance.
- Engineered a real-time BI dashboard using React, TypeScript, Next.js, and Firebase to deliver live portfolio tracking, leaderboard analytics, and performance visualizations for league participants.

Airline Revenue Management & Pricing Simulation, OPRE 3360

September 2025 – December 2025

UT Dallas — Management Methods in Decision Making — github.com/rcnue2004/airline-revenue-management

- Built a SQL-based revenue management simulation modeling dynamic seat pricing and inventory optimization for a Dallas–Chicago route over a 90-day booking window, applying EMSR fare class controls and overbooking logic.
- Wrote 10 SQL queries analyzing fare class yield, demand elasticity, booking curve trends, and overbooking rates to compare dynamic pricing against a flat-rate baseline to quantify revenue uplift.
- Developed Python visualizations to communicate booking curve, fare class revenue, and pricing strategy performance, producing a reusable weekly RM analyst report template.

LEADERSHIP EXPERIENCE

Ultimate Frisbee Captain, UT Dallas, Richardson, TX

August 2024 – August 2026

- Led a 25-athlete program across 7 annual tournaments, managing multiple concurrent initiatives and driving a 30% membership increase through entrepreneurial problem-solving and initiative.
- Managed a \$14,000+ annual budget across 7 competitions, prioritizing competing requests across financial, logistical, and administrative responsibilities with strong attention to detail.
- Mentored 8 new athletes through individualized development plans, achieving an 85% first-year retention rate through consistent communication and a continuous-improvement mindset.
